

COLE GRAPHIC SOLUTIONS

With 90 years of industry expertise, Cole Graphic Solutions delivers innovative, high-quality graphic products. Our reputation for reliability, ethical practices, and skilled professionals make us the ideal partner for your imaging needs. We excel in solving complex graphic marking challenges, freeing you to focus on core priorities. As a women-owned, stable, privately held company under the same ownership for 30 years, our extensive industry knowledge, strong supply chain, and skilled team enable us to quickly and consistently meet your unique requirements. Our enduring success stems from our unwavering commitment to industry excellence.

PRODUCTS:

pumpskins®: Pumpskins® provides a unique branding opportunity for iced tea and coffee dispensers, providing a large canvas for impactful, durable, and scratch-resistant custom graphics that transform plain stainless steel into a memorable advertisement for your brand.

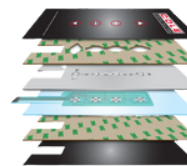

Durable Decals & Overlays: Each custom, durable decal or overlay is engineered with your exact specifications and expectations in mind. We select the best combination of adhesive, substrate, ink system, and protective coating to deliver readability and durability while assuring color consistency.

Signs & Displays: Whatever your message - your brand identity, a warning, geographical boundaries, directions, marketing message - it will be clearly and consistently delivered using top quality substrates and printing methods. Our 90+ years of experience and innovation are the result of quality production and satisfied customers.

Membrane Switches: User interface switches and keypads custom engineered, and built to your specifications, including tactile and non-tactile switches, LED's, deadfront windows, embossing, and custom termination. Prototyping and full-scale manufacturing for medical, industrial, consumer electronics, and more.

Tags & Cards: Outdoor durable inventory tags, reference cards that can come in and out of a pocket countless times and still be read, brightly colored marker-flags that can hold up to the weather – sometimes you need more durability than paper products can offer. Let's work together to assure that your custom tag or card will do the job for as long as you need it.

POLYDURA
DURABLE OUTDOOR SIGN SOLUTION

POLYTAG®
POLYCOATED OUTDOOR SIGN BOARD

Cole Graphic Solutions (CGS) has collaborated with Koala Kare Products (KKP) since 2007. In 2020, CGS faced a challenge with KKP's new logo rebrand, which required eight colors instead of the previous four, increasing costs and complexity. CGS's Prepress Manager, Jeff, innovatively reduced the color requirement to four by using halftones, maintaining the logo's quality while cutting costs and ensuring color consistency. This effective solution and hands-on strategic collaboration enhanced CGS's partnership with KKP, demonstrating CGS's commitment to efficiency and client centric approach.
